										<b>Total Base Funding</b>	<b>\$496,031,366</b>

**Notes and Assumptions:**

1. A 4% annual increase in the base federal funding for highways, bridges, rail and transportation enhancements is assumed in each four-year period beginning in 2011-2014.
2. A 1.5% annual increase in the base state funding for highways and bridges is assumed in each four-year period beginning in 2011-2014.
3. The Bridge Bond funding is for a 10 year period. The funding has been identified for 2009-2012. The funding for years 2013-2019 assumes a 9% reduction annually.
4. A 2.5% annual increase in Act 44 funds is assumed in each four-year period beginning in 2011-2014. The Act 44 funds are allocated 80% to bridge and 20% to highway.
5. A 4% annual increase in the base local funding is assumed for each four-year period beginning in 2011-2014. The funding allocation for 2009-2010 includes \$1,500,000 in local funds for the Beaver/Fraser Intersection Improvements and Street Realignment project.

<b>Notes and Assumptions:</b>											<b>\$11,918,040</b>
<p>6. No "spike" funding is assumed for projects in 2009-2010.</p> <p>7. The SXF (earmarked) funding in 2009-2010 includes: a) \$4,000,000 for the Eastern Inner Loop or related projects; b) \$298,894 for transportation improvements associated with the Penn State University baseball stadium project; c) \$1,500,000 for the Beaver Avenue Betterment (Pavement Restoration) project; and d) \$1,119,146 for the Route 150 Benner Pike Capital Improvements.</p> <p>8. A maximum of \$55 million in Appalachian Highway Development Program (APD) funds is available for completion of the I-99/I-80 Section B18 High Speed Interchange project.</p> <p>9. Additional APD and/or spike funding would be needed to advance the Route 26/I-80 Exit 163 Local Access Interchange, I-99/I-80 Exit 161 High Speed Interchange, Route 322 Corridor O1 and/or South Central Centre County Transportation Study (SCCCTS) projects. These are large, high-cost projects which are not on the project list for the LRTP, but are identified as "projects for future consideration".</p> <p>10. Additional spike funding would be needed to advance major pavement and bridge restoration or rehabilitation projects on non-interstate expressways and principal arterial roadways (e.g. major rehabilitation of all bridges that are part of the Mount Nittany Expressway east of the Park Avenue Interchange).</p> <p>11. Major pavement and bridge restoration or rehabilitation projects on I-99 would be addressed by PennDOT with Interstate Maintenance (IM) and Interstate Restoration (I4R) funding through the Interstate Maintenance Program.</p>
