**Subject:** Traffic patterns for I80 and I99 corridors

Dear Planner and Assistant Director,

I am writing to state my objections to either Musser Lane and/or Forest Ave. becoming a thoroughfare for the above named interstate highways.

Neither existing road is built to handle the increased amount or size of the vehicles that would use them to and from the interstate highways. Not to mention the residents' loss of their quiet rural home settings. I am a resident of Musser Lane, which is already experiencing an increase in traffic and a disregard for the 40 mph speed limit. There is very little in the way of deterrents against this increase of traffic and speed. These problems will only escalate if these roads become the nearest "local access" for those commuters from Howard, Lock Haven, Marion Township quarries, and campgrounds on rte. 26. and all others going to these interstate highways.

If in fact "All roads lead to Beaver Stadium" please find a way to get there without involving these two rural roads.

Thank-You

Vic Stewart
