

## **MARCH 10, 2010 MEETING**

### **ITEM 4**

#### **PA DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES (DCNR)**

##### **Presentation about DCNR Initiative**

The PA DCNR staff has requested time to provide a presentation to the CCMPO Committees about the Commonwealth's trail initiative, and the linkage between DCNR's programming activities and PennDOT's transportation planning and programming process.

The various Commonwealth departments and agencies have made a commitment to coordinating funding decisions and making the most effective use of scarce public funding. Part of the commitment is to encourage a more collaborative relationship between state agencies, MPOs, and RPOs through the MPO/RPO long range transportation plans and the Transportation Improvement Program (TIP).

The presentation is intended to outline cooperative opportunities as the CCMPO develops the new Long Range Transportation Plan (LRTP) 2040, the new 2011-2014 TIP, and future LRTPs and TIPs.

Because of a prior commitment, DCNR staff is unable to attend the Technical Committee meeting. MPO staff will provide a brief presentation.

**The Technical Committee should receive the presentation about the PA DCNR trail initiative.**
